

MEMORANDUM FOR: Colonel White

4 December 1953

SUBJECT : Clandestine Services Task Force on Logistic Base Planning

The attached memorandum specifically invites DDA/LOG to designate a representative to serve as a member. It would seem to me that the development of base support requirements for hot and cold war involves more than the interest of Logistics. I believe that this subject is of sufficient importance to DD/A across the board that one of the members of your immediate staff should participate in these meetings. That individual could bring in Logistics, Comptroller, etc. as required. Since [REDACTED] has suggested Logistics only, you might wish to mention it to him or to [REDACTED] if you agree. I would suggest the representative be either the Executive Officer or the senior Special Assistant.
